

Central Ealing Neighbourhood Plan

Your Town – Your Plan

The Central Ealing Neighbourhood Forum (CENF) is the joint body representing residents and businesses in Ealing. In 2014, we asked for your views on the future of central Ealing. We've turned your ideas into practical policies in a draft Neighbourhood Plan.

Now it's your chance to comment on what we've done.

The draft is now being submitted for public consultation. Your comments will help to shape the final version, which will be checked by an independent Examiner before going to a referendum of local residents and businesses. This will give you the chance to vote on the proposals which, if approved, will become the official Neighbourhood Plan.

In the meantime, visit our website: www.centralealingforum.com, where you will find details of the Plan and a link to a questionnaire. Please submit your comments and tell us whether or not you agree with the suggested policies (*closing date mid-April*).

We do appreciate your feedback, thank you!

Our Vision is that by 2026 the Town Centre will be a distinctive and welcoming place, attracting people to visit, work, study, shop and stay. It will once again be a natural focus for both the Borough of Ealing and the West London sub-region.

Development will enable Ealing to meet the challenges posed by a rapidly increasing residential population and improved accessibility, while keeping its special and historic character.

The Plan policies are designed to ensure that Ealing

- is a regional centre of excellence for culture and education;
- has a sustainable local economy, with a thriving shopping centre and opportunities for work and leisure;
- preserves our heritage of green space, trees and human scale.
