

Dear Sir

I want to support the **Central Ealing Neighbourhood Plan**.

As a member of the Environmental Law Foundation I have closely followed the work of the Central Ealing Neighbourhood Forum and believe their proposals offer responsible, ecological and sustainable developments that will benefit the London Borough of Ealing.

As chair of the Friary Park Preservation Group which prevented the demolition of 240 family homes in Acton I am aware I live outside the area but many Acton residents use Acton Mainline station to go to work in Ealing as well shop and use the wide variety of entertainment facilities. Any redevelopment around Ealing Station directly affects more than local people. The CENP has been regularly discussed at FPPG meetings and the local Labour Councillors have been informed of our support.

After the independent Examiner has seen the results of this consultation there will be a vote to approve the plan next year. The Friary Park Preservation Group would like to take part in the vote.

Respectfully

--

Martin Cain
