Gordon Road Zebra Crossing

Introduction

This consultation is seeking your views on the proposed Highways improvements on Gordon Road, Ealing. The proposal aims to improve road safety by providing a new raised zebra crossing and providing general highway improvements.

As part of Ealing Council’s local safety improvements, we are proposing road safety measures on Gordon Road near its junction with Longfield Avenue, Ealing.

Gordon Road runs east to west and is primarily a residential road with one lane of traffic in each direction. Bus routes run in both directions along Gordon Road, with some routes turning from Longfield Road. There are a number of bus stops and uncontrolled crossing points along the length of Gordon Road.

According to our studies and site observations, pedestrians are finding it difficult and unsafe to cross Gordon Road, particular between Longfield Walk and Longfield Avenue. There is an existing crossing with refuge islands nearby, however it is a controlled crossing and is located away from the desired crossing path.
Gordon Road Zebra Crossing

Existing Issues

- Poor visibility and high speed on Gordon Road.
- Heavily traffic and drivers are not adequately aware of crossing pedestrian.

Proposals

The proposal involves improving road safety and accessibility in the area. To do this we will:

- Install a zebra crossing
- Install raised junctions at Gordon Road and Longfield Avenue.
- Install a pedestrian guardrail to direct pedestrians to the correct and safe crossing area.

Benefits of the Proposals

- Improved safety and accessibility for pedestrians
- Improved crossing facilities
- Reduced traffic speeds
- Improved visibility to drivers
