Troubleshooting

I can't create a PayByPhone account. My email address is already recognised. You may have an old account. Try requesting a password reminder at <https://m2.paybyphone.co.uk/login/reset>

My phone doesn't support the PayByPhone app. Some older phones and computers use operating systems that don't work with the latest PayByPhone app. But if the app doesn't work you can use the PayByPhone website, which is customised for mobile devices when accessed through a phone. Just visit www.paybyphone.co.uk

My app doesn't display the 'Permits' option. The app may need to install updates. Please check your phone settings to ensure these are not blocked.

Can I use the service even though I don't have a mobile phone or computer? Yes you can. Simply call the PayByPhone support team on 0333 212 5586.

I have been asked to provide supporting documentation. What does this mean? We have been unable to automatically verify you using the information provided or you have not provided a date of birth. Supported documents include bank statement, utility bill, or tax document within the past 3 months to verify your identity.

I believe my allocated zone is incorrect. If believe that you have been allocated the wrong zone please contact PayByPhone at uksupport@paybyphone.com

My question is not addressed on this page. For other queries we recommend visiting the PayByPhone website at www.paybyphone.co.uk and selecting the 'Support' option or calling the support line on 0208 039 1100.
