

GURNELL LEISURE CENTRE

Vision Workshop

Date/Time: **Tues 17th May, 17:30 - 20:30** (17:15 for a 17:30 start)

Venue: **Queens Hall, Ealing Town Hall**

Hosted by GT3 Architects and Ealing Council, the Vision Workshop is part of a wider study to look at the feasibility of a new Gurnell Leisure Centre.

This session is an aspirational workshop exploring the vision and objectives of a potential new leisure centre. The 3-hour workshop is interactive and includes:

- *Short presentation, giving context on the feasibility study and current trends in leisure design.*
- *Interactive activities**
- *Chance to discuss the ambition and requirements of a potential new centre.*

(* To participate in some of the activities people will need to bring a mobile device - phone/tablet/laptop - with access to the internet.)

The results of the workshop will be captured in a 'Vision Document' which will form part of the feasibility study.

As part of the wider feasibility study other, non new-build options are being explored. To keep the Vision Workshop focussed, these will not be discussed at this session but will be shared later in the process.

Please RSVP to Richard Sims at simsr@ealing.gov.uk. Please also let us know if you have any accessibility requirements. There will be breaks in the workshop where tea/coffee will be available - please bring your own food, if required.
