

Public consultation North Acton Playing Fields Play area proposals

**Do it
Online**

Ealing Council are seeking the views of residents and park users on a proposal for improvements to North Acton Playing Fields Play area.

Ideas for this park include extending the existing play area to include a new and exciting natural play unit for all ages and abilities. We will ensure that the design is sympathetic to the area and a range of materials will be used to blend the area into its surroundings. The existing play space will also be refurbished and include replacement of existing equipment and surfacing where needed.

The council would like to hear your views on this park.
Please see some initial ideas on the back of this leaflet.

**Have your
say**

**Tell us what you think by completing the online survey at:

Rectory Park Play area concept plan

As part of the improvements we would like to design a new natural play extension to the existing North Acton Playing Fields play area. This will contain natural timber play facilities for all ages.

Please have a look at the proposals below and let us know if you agree or disagree with the changes to the play area layout?

Example of natural play area within Acton Park similar to the one proposed.
