Local Government Pension Scheme Updates

- **Pooling/Climate Change** – The council is one of 32 London local authorities and have been active participants in the Collective Investment Vehicle (CIV) programme, the regional pool for London. As early adopters we helped to set up the company embracing the initiative long before the government announced that all LGPS schemes are required to pool their investments. The pooling arrangements are presumed to improve governance and promote more infrastructure investments amongst other benefits. The Government has been consulting on new guidance regarding asset pooling within the LGPS. The Department for Work and Pensions (DWP) also conducted a consultation on draft regulations that would require occupational pension schemes to meet climate governance requirements. The LCIV is providing support to partner funds in anticipation of any mandatory reporting requirements, offering training and assistance with reporting.
- **Governance** – The Pension Board (set up in line with LGPS regulations brought on by the Public Sector Pensions Act 2013) continues to oversee that the Fund is complying with relevant laws and regulations and ensuring that the Funds governance arrangements are effective and efficient.
