

## Traffic Management Order responses – Winter 2024, Batch 4

**Date Received:** 17/02/2024

**Site related to:** Northwood Gardens

**Issue raised through TMO:** Parking issues and bikes can already be accommodated already by houses.

**Action and response from Council:** Ealing Council understands there is parking pressure on Northwood Gardens. However, the installation of bike hangars is in response to very high demand for safe cycle storage across the borough. Northwood Gardens has been identified as somewhere with sufficient demand for this installation. The council are following the principle that providing six residents with cycle parking is a greater resident benefit than retaining parking space for one car. The installation of bike hangars is in line with the council's commitment to zero carbon emissions and supporting residents to cycle.

**Date Received:** 09/02/2024

**Site related to:** Green Drive

**Issue raised through TMO:** Met Police concerned about the location opposite a junction.

**Action and response from Council:** The bike hangar will be placed directly into an area of unrestricted parking that is currently being utilised by vehicles. The bike hangar occupies the same space as a parked car so should pose no increased risk of a collision than there currently is at this location.
