## 1. Introduction to the Council Tax Reduction Scheme

Council tax benefit, a national scheme, was abolished by the government in April 2013.

From this time, local authorities in England have been required to operate their own scheme, subject to the council tax reduction schemes (prescribed requirements) (England) Regulations 2012 (SI 2885) which prescribes elements that must be included within a local reduction scheme.

Persons of pension age must be protected by local authorities and receive no less benefit than they received under the council tax benefit scheme.

[The Council Tax Reduction Schemes \(Prescribed Requirements\) \(England\) Regulations 2012](#) as amended prescribe a number of matters which must be included in a scheme and this scheme is to be interpreted and applied in accordance with those regulations. The council has based its local council tax reduction scheme for working age persons on [The council tax reduction schemes \(Default scheme\) England regulations 2012 SI 2886](#) but has replaced the calculation methodology with one of its own.

Ealing Council's council tax support scheme and amendments between 2013 and 2019 have been based around the original council tax benefit regulations due to the continued administration of housing benefit within local authorities which duplicates much of the original council tax benefit regulations.

The gradual introduction of Universal Credit across the United Kingdom, which replaces housing benefit has meant that the council is administering fewer and fewer housing benefit cases.

This has allowed the council to move away from the old system based on needs, allowances and tapers and move to a simpler and more streamlined system of support.

The new scheme is based on income bands, and it will greatly reduce the number of recalculations required if a change in the applicant's income does not result in them moving to a different income band.

Non-dependant deductions are still applied within the scheme, but the number of bands have been reduced to three.
