**HEARING SESSION AGENDA****Matter 9: Development Sites**

**NOTE -This Matter is scheduled to be covered over two days. Session A is Tuesday 16 December 2025. Session B is Wednesday 17 December.**

- Questions relevant to this Matter are set out in the Inspectors Matters, Issues and Questions (MIQs) [EX16].
- This agenda is designed to indicate the specific areas that the Inspectors would like to focus on in the Hearing session. This is to assist all participants with preparation (with the relevant question number from the MIQ document also included to allow cross referencing). Having read the hearing statements it may be necessary to pose some supplementary questions in this session. Other MIQs within this matter that are not on the agenda are still open for discussion at the Hearing session under 'other soundness points'.
- Guidance on the format and taking part in the virtual Hearing sessions can be found in the Inspectors Guidance Notes [EX29]. Participants will be assumed to have read these and should be aware that the hearings are focused sessions with limited time. As such, repeating statements already put to the Examination at length will not be permissible. Contributions should be succinct and to the point in the interests of making the best use of the time available and fairness to everyone.
- Sites indicated as being for substantive discussion are because the Inspectors have further questions beyond the written statements and/or other participants have shown an interest in speaking. This should not be taken as an indication that other sites are sound or that participants will not be able to speak about them.
- Any specific needs or questions about the procedure should be drawn to the attention of the Programme Officer as soon as possible.

## **Issue**

Whether the Development Sites are justified, effective, in general conformity with the London Plan, consistent with national policy and positively prepared.

## **Plan policy focus** – Development Sites

## **Agenda**
