

Business VAT Registrations 2004

Ealing in Figures

The rate at which the number of businesses grows or declines in an area can be measured by the number of annual VAT registrations and deregistrations. VAT registration data shows the total number of businesses which have an annual turnover of £52,000 and over. This covers the majority of businesses in the economy. Companies which deal entirely with products which have no VAT, which is rare, are excluded.

NOMIS Guidelines for use of VAT Registrations

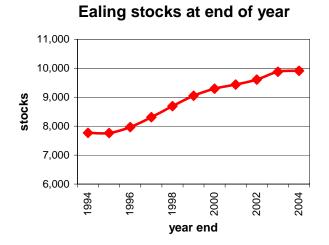

- 1. VAT registrations and de-registrations are the best official guide to the pattern of business startups and closures. They are an indicator of the level of entrepreneurship and of the health of the business population. As such they are used widely in regional and local economic planning.
- 2. These figures do not, however, give the complete picture of start-ups and closures activity in the economy. Coverage of the statistics is complete in all parts of the economy except a few VAT exempt sectors and the very smallest one person businesses operating below the threshold for VAT registration. At the start of 2004, the VAT threshold was an annual turnover of £56,000, and 1.8 million of the estimated 4.3 million enterprises in the UK were VAT-registered.
- 3. However, some businesses do voluntarily register for VAT even though their turnover is below the threshold. Data for 2004 shows that around a quarter of all registrations have turnover below the VAT threshold.
- 4. To make the figures as comparable as possible over time, a number of adjustments are made. The figures for recent years are increased slightly to allow for the small number of registrations and de-registrations that take more than a few months to be reported.
- 5. Many factors influence the pattern of business start-ups. Among the most important are economic growth (encouraging new ventures and creating demand for business and personal services), the level of industrial restructuring and contracting out, and the stock of people with management or small business experience.
- 6. The source of these figures is the Inter-Departmental Business Register (IDBR). It contains records of all businesses registered for VAT. The IDBR is administered by the Office for National Statistics (ONS), which publishes information on the stock of VAT registered businesses in UK Business: Activity, Size and Location. The Small Business Service and ONS publications complement each other, although adjustments and minor differences in coverage mean that they contain slightly different estimates of the registered business population.

VAT registrations

Ealing, 1994 to 2004

| Year | Registrations | Deregistrations | Stocks at end of year | Net-change over the year | Percent change over the year |
|------|---------------|-----------------|--------------------------|-----------------------------|------------------------------|
| 2004 | 1,295 | 1,270 | 9,910 | 25 | 0.25 |
| 2003 | 1,315 | 1,040 | 9,880 | 275 | 2.78 |
| 2002 | 1,185 | 1,015 | 9,605 | 170 | 1.77 |
| 2001 | 1,150 | 1,010 | 9,435 | 140 | 1.48 |
| 2000 | 1,195 | 945 | 9,295 | 250 | 2.69 |
| 1999 | 1,190 | 835 | 9,050 | 355 | 3.92 |
| 1998 | 1,230 | 845 | 8,690 | 385 | 4.43 |
| 1997 | 1,245 | 905 | 8,310 | 340 | 4.09 |
| 1996 | 1,065 | 855 | 7,965 | 210 | 2.64 |
| 1995 | 990 | 1,005 | 7,760 | -15 | -0.19 |
| 1994 | 1,075 | 1,120 | 7,770 | -45 | -0.58 |

Net percentage change in VAT registered stocks at year end shows Ealing to have experienced a higher rate of business growth than the benchmarks of West London, London and England since 1999 in all but one year. In 2004, Ealing's rate of growth was marginally lower than that for West London.

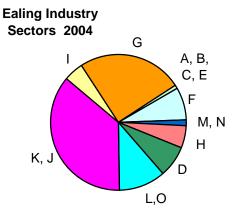

Ealing's comparatively good rate of business growth has slowed (along with benchmark areas) over 2004.
