PUBLIC CONSULTATION
New bus stop at Bollo Lane nearby Acton Town Station - Route E10 extension

Ealing Council is proposing to extend the E10 bus route to Chiswick Office Park. This scheme is funded by Transport for London.

Buses would run every 15 minutes during Monday to Saturday daytimes; every 20 minutes during Sunday shopping hours; every 30 minutes on all evenings and Sunday mornings.

The purpose of this consultation document is to get your views on a proposed bus stop near Acton Town Station, which is part of the proposed extended route. The proposed bus stop is shown on the plan overleaf.

Your views are a very important factor in the council’s decision-making process and contribute towards the decision to go ahead. Please note that depending on the results of this consultation, a decision will be made on how to progress with this proposal, in consultation with your Ward Councillors.

Please read through the information contained in this leaflet and then complete the questionnaire. The closing date for the consultation is 29 June 2012.

The Benefits
- Extension to the E10 route to improve public transport coverage to the surrounding communities;
- Improvement to connectivity within the public transport network;
- Provide new accessible links between communities and opportunities;
- Provide new public transport facilities.

Disadvantages
- Loss of one stop and shop parking bay and two residents only parking places.

Your Views
The Council would like to know your views, to ensure that the proposal is appropriate. Please read this document carefully, look at the attached plan, and complete the questionnaire.

Please respond the questionnaire by 29 June 2012.

What happens next?
We will analyse your responses and comments, and these will be taken into consideration. The results of the consultation can be viewed online during July 2012 by going to

http://www.ealing.gov.uk/consultations

Then follow links for “Past consultations”; “Environment” and clicking on the proposed scheme.
How Ealing Council’s strategy contributes to improve public transport for its community?

- By improving and providing public transport facilities to ensure that everyone has opportunities to access to jobs and key services;
- By improving balance between capacity and demand for travel through increased public transport capacity;
- By providing interchange points within different modes of transport within the public transport network;
- By improving north-south connections;
- By encouraging road users to use sustainable modes of travel.

The council would like to implement a scheme that is best suited to the local community, and we welcome your input on the proposals. Please examine the plan and complete the questionnaire, returning it to us before 29 June 2012.

Thank you for taking the time to respond.
