IMPORTANT INFORMATION

Please remember that the consent form that is included with this application pack must be signed by the landlord of any property that has access rights or ownership of the affected alleyway.

If full consent is not received, we will not consider your application.

Please ensure that the signatures that you provide are those of the landlord and not the tenant/tenants that are currently living there.

Spot checks will be made through the land registry to ensure that ownership and consent is correct.

Please remember to explain to the other property owners / landlords, who will be part of your gating scheme, that if gates are damaged or tampered with the council is not liable and that maintenance will be resident's responsibility.

The council does not hold keys to schemes and does not organise any replacements.
