Public Consultation

Pedestrian Safety Improvements

Existing Issues
Existing issues identified within the study area include:

- Wide crossing point for existing pedestrians.
- Poor visibility between drivers and pedestrians.

Proposals
The attached proposal involves creating a crossing point to serve pedestrians travelling between Ellison Gardens and Victoria Road. Some of the features of this design include:

- Build out of the junction of Collison Gardens.
- Crossing point outside no 70a Norwood Road.
- Relocating the existing tree at that location to the south side of Norwood Road.

The Benefits
- Narrowing the crossing distance for pedestrians
- Increasing visibility of crossing pedestrians.

Your Views
The Council would like to know your views, to ensure that the measures proposed are appropriate. Please read this document carefully, look at the plans overleaf and go online to www.ealing.gov.uk/consultations to complete the questionnaire for this scheme.

If you prefer, please return the questionnaire in the enclosed ‘reply-paid’ envelope to reach us by 19 July 2013.

Corridor 5 - Norwood Road
As part of Ealing Council’s Corridors and Neighbourhoods improvement programme, proposals have been developed to improve the image, accessibility and safety of the area of Norwood Road.

Background
Road users have identified the need for a crossing point in Norwood Road near the junction with Ellison Gardens and Victoria Road. Following a survey of crossing movements in the area, we found that there is not the volume of pedestrians to justify a controlled crossing. As a result we are proposing to introduce the attached scheme that whilst not interfering with the parking arrangement in the area shortens the crossing distance for pedestrians and allows better visibility between them and drivers.

The closing date for this consultation is 19 July 2013

Please go online to www.ealing.gov.uk/consultations to complete the questionnaire for this scheme. If you prefer, then complete the attached paper copy and return it using the envelope provided.
